ROSE

She's brave and she's bold and she's best mates with a Time Lord – meet Rose!

NAME

Rose's full name is Rose Marion Tyler. She was born in London, and her dad died in a car accident when Rose was just a baby.

HOME

Rose lived on the Powell Estate in South London with her mum until she met the Doctor. She swapped her London life for an exciting new one inside the TARDIS.

AGE

It's difficult keeping track of your age when you time travel, but Rose was 19 when she met the Doctor. She left school with no A-Levels but she's no fool. Rose is clever and quick to adapt.

JOB

Until she met the Doctor, Rose worked in a big London department store called Henrik's. Rose found it quite a boring job – and the most exciting thing that happened there was when the Doctor blew the shop up!

CLOTHES

Rose has taken most of her favourite clothes with her! She hasn't relied on the TARDIS wardrobe room too much – other than the time the Doctor and she landed in Victorian Cardiff.

WHO'S WHO

MUM

The lovely Jackie Tyler. She's mouthy, but only wants the best for her daughter. Jackie misses Rose very much – but knows Rose has to travel!

MICKEY

Mechanic Mickey Smith is Rose's boyfriend. Poor Mickey waits patiently for her to return for good one day. But how long will he wait?

DAD

Rose's dad, Pete Tyler, was full of mad money-making ideas. Rose went back in time to see him with the Doctor...

BEST FRIEND

Rose's best mate is the Doctor. She often mentions a friend called Shareen, but there's no one in her life like the Doctor!

ADVENTURES!

So much has happened to Rose so far!

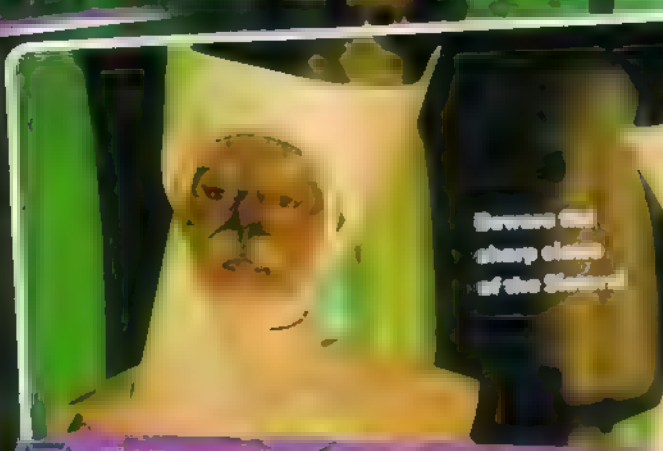
NEW EARTH

WHAT'S IT ALL ABOUT?

The Doctor receives a message on his sonic screwdriver from Martha, who is trapped in the year 5 billion on New Earth. There's something strange going on there and a mysterious someone keeps on sending her letters.



1 SISTERS OF PLENITUDE

The TARDIS lands on New Earth, near a hospital run by the Sisters of Plenitude. They glide around the wards, helping and curing patients all too easily. And they're cats!

3 ANOTHER OLD FACE!

Rose runs into an old enemy Cassandra – the last surviving human! When they last met, she dried out and exploded – but some of her skin survived. Now, with the help of her servant, Chip, she's looking for a new body and with a psychograft machine, she steals Rose's!

2 FRIENDLY FACE

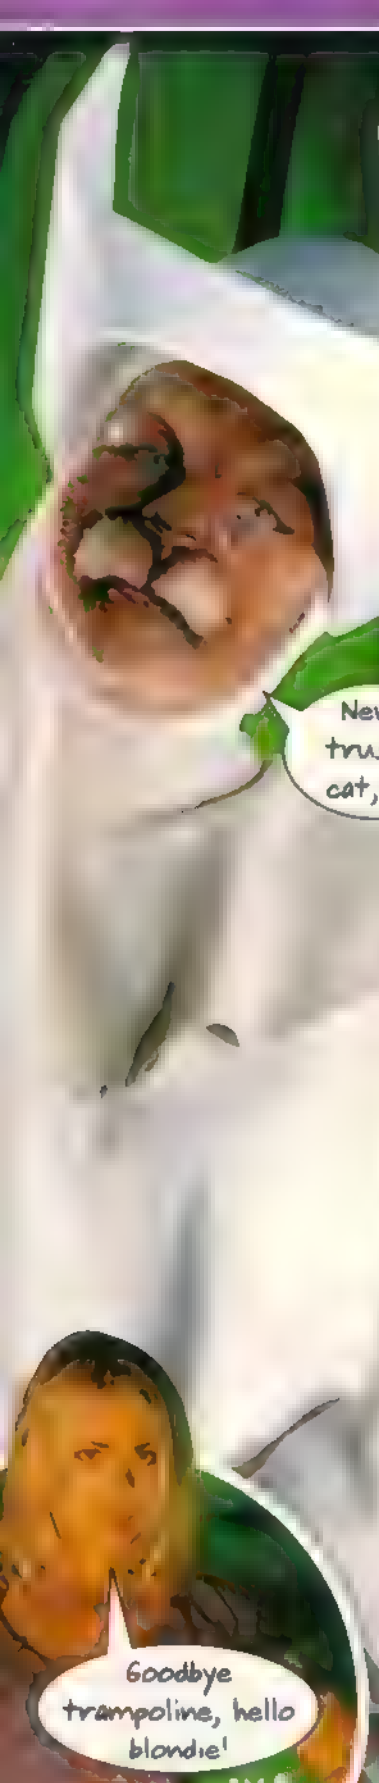
The Face of Boe had sent the message. He's in Ward 26 because he is dying of old age. Some say he is thousands, if not millions, of years old!

4 SECRETS

[illegible] an awful secret they've grown humans and infected them with every disease in the galaxy, so they can find cures to [illegible] illnesses. In Rose's body, Cassandra releases them all and they start to infect everyone they touch.

5 SAVING THE DAY

Of course the Doctor knows how to save the day. With help from a reluctant Cassandra, he risks his life to disinfect all the zombie-like patients and cures them all. Go, Doctor!



6 GOODBYE CASSANDRA

Leaving Rose's body, Cassandra jumps into Chip, who's dying. The Doctor and Rose take her back in time to meet her younger self. Young Cassandra watches as the strange Chip tells her how beautiful she is before dying. The Doctor and Rose leave upset, but ready for more adventures.

MAKE YOUR OWN

Empty Child mask

Put this mask on your face – and then you're set to scare!

You will need:

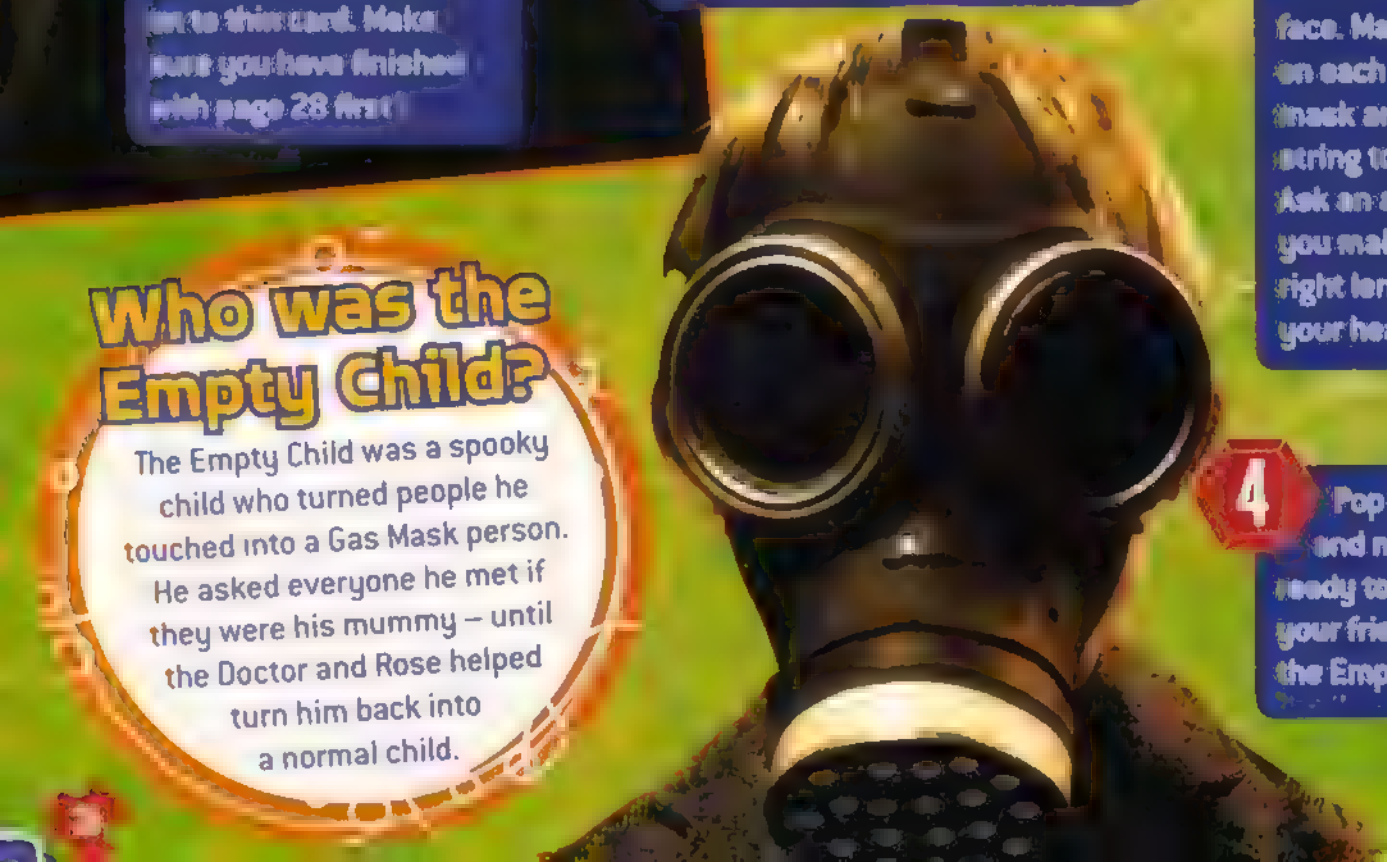
scissors • PVA glue • some thin card • elastic or string

1 Cut out the opposite page and stick the whole page on to thin card. Make sure you have finished with page 28 first!

2 When dry, cut around the mask with a pair of scissors. Carefully cut the eyes out too!

3 Use a piece of string or elastic to fix the mask to your face. Make a hole on each side of your mask and tie the string to both sides. Ask an adult to help you make sure it is the right length to fit on your head.

4 Pop the mask on and now you're ready to freak out your friends playing the Empty Child!



Who was the Empty Child?

The Empty Child was a spooky child who turned people he touched into a Gas Mask person. He asked everyone he met if they were his mummy – until the Doctor and Rose helped turn him back into a normal child.

CREATING THE FUTURE

To find out how NEW EARTH was made we went behind the scenes with the Doctor Who Confidential team!

JUST LANDED

In this picture the TARDIS is being set up for its arrival on New Earth. This part of the story was filmed at the Gower Peninsula in South Wales.

THE STORY

It's the future and the Doctor and Rose discover cat-like nuns are behaving badly in a hospital on the planet New Earth...

KEEPING WARM!

The big jacket that the Doctor wears looks really cosy, which was useful on a cold cliff top like the one in the episode! It's made from the same material as a sofa!

SLEEPY FACE

Even the mighty Face of Boe gets tired between takes! Here the 'Face' lies on the ground waiting to be dropped in his truck. Bless him!

THE CREW!

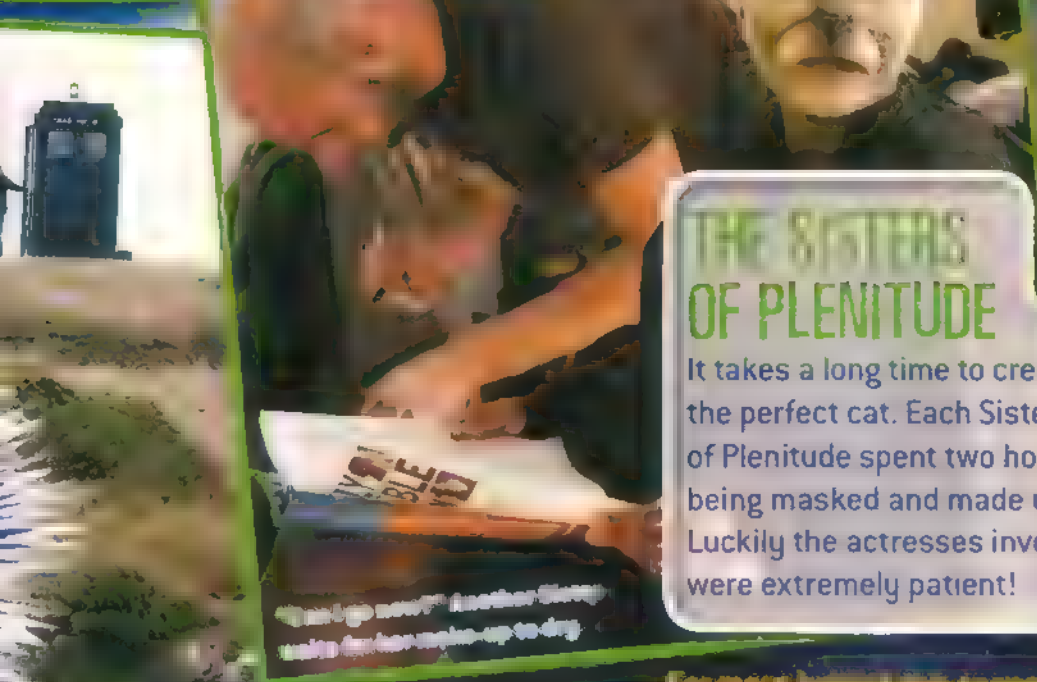
Who are all these people? There are loads of people behind the camera during filming! Can you spot the Doctor (David Tennant) and Rose (Billie Piper)?

Extra info

Extra info

THE PATIENTS

The infected 'patients' looked really gruesome. Once the make-up was on, each patient was sprayed with alcohol so it wouldn't come off.



THE SISTERS OF PLENITUDE

It takes a long time to create the perfect cat. Each Sister of Plenitude spent two hours being masked and made up. Luckily the actresses involved were extremely patient!

NEXT ISSUE: We look behind the making of the scary story TOOTH AND CLAW!
